Inspired by Nature

2026

GINGER & JAGGER

Launched in Europe in 2012, Ginger & Jagger is a design brand dedicated to creating high-end handcrafted contemporary pieces inspired by Nature.

Designed and produced in Porto, a land of skilled craftsmen and age-old traditions,

Ginger & Jagger's Earth to Earth collection unfolds as an evocative poetic realm where Nature's sculptural forms are immortalized through exceptional craftsmanship, unique artisanal techniques, and an exquisite blend of materials such as brass, copper, exotic woods, and marble.

Ginger & Jagger is for aesthetes, rebels, travellers, and dreamers. At its core lies a desire to infuse living spaces with the spirit of wanderlust, bringing the purity of Nature, the origins of the world, and its untamed beauty into everyday life.

Nature has a unique way of inspiring creativity.

How far would you go for inspiration?

MIRRORS*

New Design

The Lapa mirror emerges from the Atlantic coastline's mineral memory. Framed in silver travertine, it preserves textures shaped by erosion, wind, and time, revealing stone's quiet breath and enduring presence.

Mirrors

Ginger & Jagger's mirrors have a sculptural scale, elevating their presence in a living space, becoming the ultimate artisanal pieces.

Vine | Singular Mirror

Framing the beholder in a crown of vine branches, the Vine mirror is the ultimate artisanal piece. The four arches that form the frame are handmade from vine branches, molded in brass casting, found in the Douro Valley, home of the unique Port Wine.

*Evoking the incandescent flow of lava through marble,
Etna unfolds as a continuous vertical form marked by subtle
undulations and a delicate trace of light.
Its sculptural presence retains a sense of latent energy,
balancing materiality, light, and silence.*

Lighting

The intersections between light and shadow, stone and metal, are the quintessence of Ginger & Jagger's canon. Lighting sculptures with handcrafted metal and marble with a tactile element.

Pearl | Wall Lamp

The Pearl Wall Lamp is a poetic handcrafted tribute to Nature's mysterious ways. Crafted in marble and metal, the piece embodies one of Nature's most remarkable attributes - serendipity. The magnificence of naturally formed pearls is both breathtaking and exquisitely rare. Inspired by this extraordinary phenomenon, the Pearl Wall Lamp features a hand-carved marble form, making each piece, much like a natural pearl, a truly unique sculpture.

The structure is molded in brass casting from magnolia tree branches, providing function to its natural form.

The softness of the marble and the ruggedness of the textured brass are a testament of Nature's paradox: complex, yet simple.

Brass Casting & Metalsmithing

The designers and artisans select raw materials from Nature, such as branches from rosebushes, vines, and fig trees, leaves and bark.

The brass casting process is made with sand, fire and brass. The melted brass fills the shapes and textures left on the sand by the branches and the leaves.

Made eternal, the natural elements are then crafted by hand, providing a new sense of purpose to them - function following form.

Wood Marquetry & Turning

The natural element in Ginger & Jagger's aesthetic canon is embodied by the use of raw materials such as solid wood or the finest wood veneers.

The wood carved from Nature provides function to the natural form, while the inlay marquetry evokes the first rays of sunshine passing through naked tree branches.

A balance between the integrity of the materials, the artisanal techniques employed and the brand's very own narrative element is the quintessence of Ginger & Jagger.

Stone Carving & Stonemasonry

*The design is the template,
but each piece is imprinted with its own story.*

*From inception to completion, each Ginger & Jagger creation is unmatched in craftsmanship,
and absolutely unrepeatable.*

*Made from handpicked blocks of marble,
the designs become unique hand-carved sculptures with a functional element.*

Award winners

The brand's compass is kept by an uncompromising desire for creative innovation balanced with the integrity of the materials and the artisanal techniques availed.
